## **ASSIGNMENT 1: STARTING PITCHES**

**1.**

Two down-on-their-luck best friends inherit a decaying old house from a mysterious great-uncle, hoping to fix it up and sell it for a fresh start. As renovations begin, they discover the house is already occupied by a strange and terrifying creature that has no intention of leaving.

**2.**

A famous bakery owner buys a rare, supposedly organic ingredient from a farmers' market to elevate her already beloved desserts. The pastries become an overnight sensation until customers begin transforming into sugar-fueled zombies. With the outbreak spreading fast, she must undo the curse she unleashed or watch the world fall to her own confections.

**3.**

During a cross-country road trip, three friends stop at a charming Southern roadside motel run by an overly friendly country man. While they sleep, they learn the horrifying truth: their host is a bloodthirsty, banjo-playing monster and they've checked in just in time for his next meal.
