

Hello All, I am Andor S. Mate. A Graphic Designer and Cartoonist who loves to create art and design for others and for myself. As I make my artwork, I try to make them look different from the rest, but somewhat similar that everyone can understand. My artwork and/or design are filled with balance form, wonder of design, and an unexpected style. In this book, it holds some of my artwork that I work on during my time at university of Bridgeport. There was some trail and error, but there are certain pieces are the ones that I work hard on to make them look incredible.

STUDIO

Necessary Voice Project

This was one of my first design poster that I made in Advance Design Service. I tried to capture the ideal of old style poster using Neuxas rust typography, which grabs everybody attention and want to go to the event and be involved and show their big idea that they have because that was the main thought and inspiration to all these events.

Calligraphy Fizbeq Branding

This was a calligraphy project where we had to make up a name from random letters and use a certain typefont to match. We had to use pen and ink first to draw out the name, then redraw it on the computer. It was a most fascinaing and fun project because it allowed us to sketch out ideas and use it on a certain product.

Holiday Concert Program 2017 Musical Snowman

This is my fun interpretation of the holiday music concert to grab the attention for younger generation and make them want to come and see the concert. The three snowman playing instruments. I got the idea from how in the winter most people go outside and make snowman. I add a green gradient because it help bring out the snowman and to make it feel like the winters colors and remind everybody for the holidays. The snowflakes also add a winter feeling. The typefont that was use in this poster was Hobo STD Medium, Helvetica Neue Bold, medium, and regular.

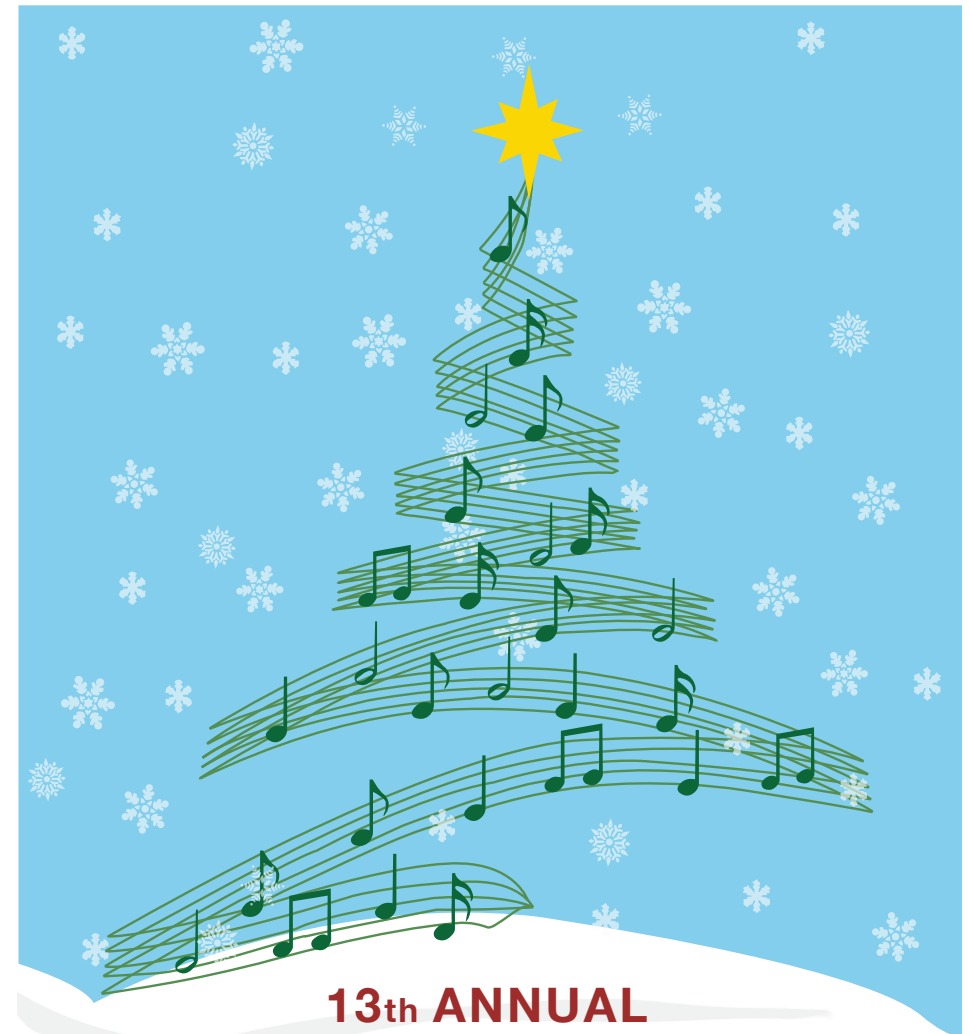

AHPU-UB Collaborative Graphic Design Program Curriculum Exhibition Collection

This is a bilingual brochure was created in Advance Design Service for University of Bridgeport and AHPU joint project for introduce our University to Asian Students and showcase our work to them and their work to us. This was my first time to be Project Manager and working not only peers and professors from China and South Korea. It was a big team effort to create it and it was a big success.

Holiday Concert Program 2017 Musical Tree

This is a classic version of a classical Holiday Concert. I went with this to show on different view of the concert poster. The outside snow flakes adds a winter style and the music tree add an interesting element, which speaks for the style of the concert. The typefont that was used in this poster was Athelas bold, Helvetica Neue Bold, medium, and regular.

Vaseline Product Client Project

This was made in collaboration with an industrial designer. The project took time and effort to come up with some unique product and design. It's always hard to make it look new, hip, and establish a well-known brand, but I think we succeed with this unique idea.

Workmark H Hammers

This project was to see what form of workmark we can make out the letter we got. I got an H, so I tried to look almost anything that starts with H that can be bend into the wordmark. Hammer seemed like the one that worked well with H. So I combined a couple of hammers together to make the H. This was fun and riveting.

Now as we leave Graphic Design, we enter a world of fantasy!

As cartoonist/comic artist, I always wanted to make a world that is my own, these cartoon illustrations of from my world with a certain legend with each one. I give each a certain form and legend that gives it a distinct and fascinating form. It's a world where madness and order always fight and coexist.

Discrystal Forest

An unexplained forest where logical and madness battles. The forest way of life can be altered day and reversed the next day. The wind or breeze can be reversed to come up front of a person, then the next day it came to the back to the person. A compass doesn't work in the forest, due to the mysterious magnetic energy in the forest. Discrystal Forest trees are in all seasons. The water can be reversed to flow back for one day and flow normal the next day and back and so on. The Forest Crystal are said to give the forest its mysterious power. They weigh 75 tons each.

Crosspath Scarecrow

A spirit that helps those in need of guidance, but to earn his wisdom and guidance, you must respect and trust him. If disrespected and insulted him, that person shall perish and be abandoned from him. He can only be found at crosspaths like when you reach the fork in the road of life.

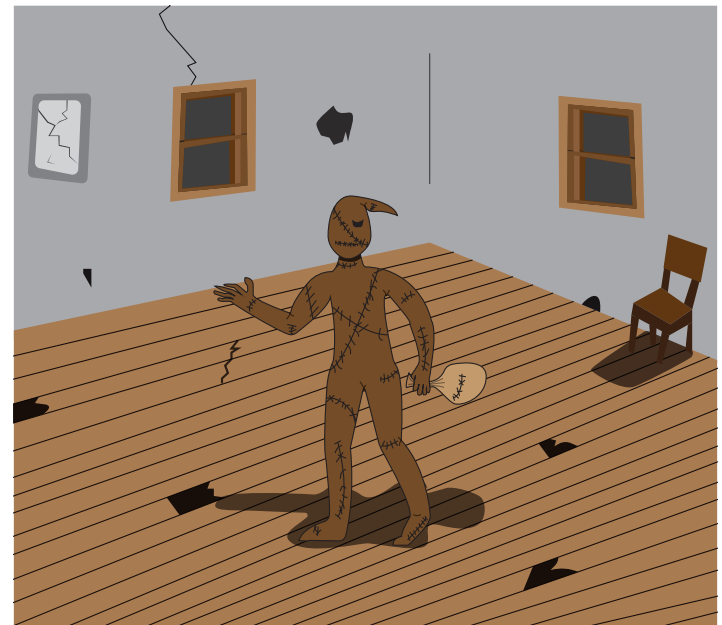

Dirmud Slashers

Dirmud Slashers only live in Discrystal Forest. They born from the lack of nutrients in the earth soil and from the mysterys energy of Disrystal Forest. They hid in the soil until they close to their prey to attack. The only way to ward away a Dirmud slashers is with a handful of salt. You can hurt or kill a dirmud slashers with a poison of a snake or with hot water. They can't stand to live out of the sunlight for too long or else they'll dry out and crumble.

Stitch Dealers

Legendary dealers, who live in junkyards, abandon house, and damage areas. Their forms look like a stich together rag dolls. They collect things that are interest to them. When dealing with a stich trader. You must have something very valuable to trade with them. When they get something that's extremely valuable and rare, they give the person who made the deal a unbreakable thread with a silver needle attach to it. They keep most of their collection inside their bodies. But if you do not ruin the deal and make them angry. They will kill you by sewing your body together in a horrifying way and take organs or what they want from you. They can only be killed or ward off by fire.

The Fossil Vulture

It has a nickname: One of Three Beasts of the End. This horrifying colossal birds is said to have lived a millions of years. At night, when the moonlight hits this carnivor, it's form look like a fozzilize vulture. It is the symbol of death. It's bones like armor and feathers are hard as the earth core. Claws like mighty swords to scar the earth.

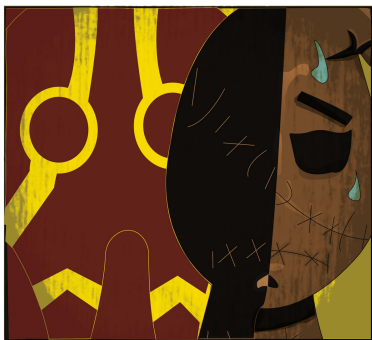

Steam Spider

A spider that is mechanical. It was created when an alchemist tried to make a chimera out of a steam power machine and a spider. It was fused together, but it ran away from its creator the moment it was created. It's silk web may be wide and thick is as strong as steel, light as a feather, and pale like the full moon. Now it walks the earth to hunt and live. The Steam spiders live in dark Forest area, or abandoned metal areas.

A Foggy Mask Short Comic

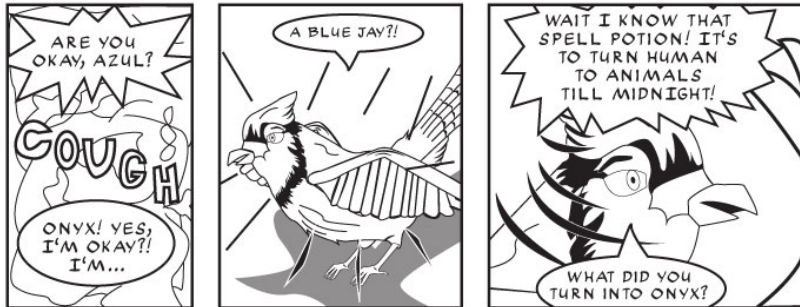

This one out of two pages of an original short comics that I made. This take starts off as my original character Stitch Dealer is having Trouble figuring out where he is and he feels something frightful. This is a project that requires us to make a horror theme short comics.

A Foggy Mask Short Comic

This is page two. I made the concept of what of a horror comic where it doesn't use the typical horror like killing, but the use surprise and almost getting caught. The Creature that I made in this Comic beside Stitch Dealer is the Misfortune Dream Doctor. This specific type of doctor is one that I made before and wanting to put him in. His race of supernatural is a doctor that heals those, but take what they want.

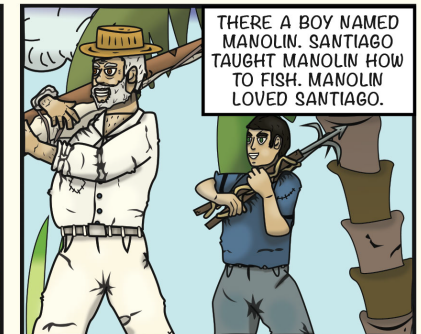

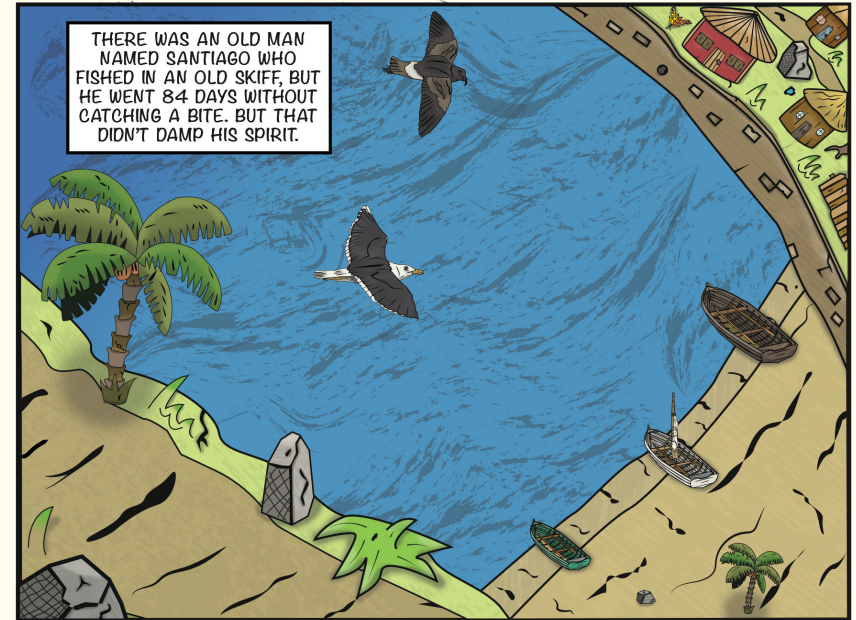

Alchemist and Sorceress

One of my original comic that I made for a project, and I enjoy this making this because this help to learn different type of Cartooning and help me develop my style and characters. It's about about how Azul the Sorceress is trying to make a potion to make a magical familiar with her friend Onyx the Alchemist. It went wrong and now they are transform into animals.

Old Man and The Sea By Ernest Hemingway

An adaptation of one of Ernest Hemingway Greatest novel "Old Man and The Sea," which is one of my favorite book. I went for this choices for one of my required class project because the novel is wonderful tale of an Old Man fighting against the mighty Sea.

The Strange Case of Dr. Jekyll and Mr. Hyde

Another adaptations of a Thriller novel "The Strange Case of Dr. Jekyll and Mr. Hyde, By Robert Louis Stevenson. In my Short Comic class, the project was to choose and research a novel of my own decision, then convert it into a one page short comic. I went with Dr. Jekyll and Mr. Hyde, for the reason I like Old classic monster films and this story is about the battle within one self.

The Strange Case of Dr. Jekyll and Mr. Hyde
By Robert Louis Stevenson

Artwork done by Andor S. Mate

THE MAN YOU SEE ON THE FLOOR IS THE FAMOUS DR. HENRY JEKYLL AND THE SINISTER MR. HYDE!

IT STARTED AS I WALK DOWN THE STREET TO VISIT A CLIENT AND MY VERY OLD FRIEND DR. HENRY JEKYLL.

I WONDER WHAT HAS DR. JEKYLL NEED OF ME TODAY?

GOOD DAY MR. HYDE! FROM YOU APPRANCE, YOU MUST BE AN OLD FRIEND OF DR. JEKYLL!

YES, I AM MR. HYDE! I MIGHT KNOW DR. JEKYLL!

A FEW DAY LATER.

I WAS MEANING TO MENTION THIS, DR. JEKYLL! I MEET YOUR ASSOCIATE, A MR. HYDE!

PLEASE, MR. UTTERSON! MR. HYDE GIVES ME A HEADACHE!

THE NEXT DAY.

OH MAY DEAR! I HAVE FEELING THIS IS MR. HYDE DOING! HE HAS A STRANGE AIR!

My Confession, by Henry Jekyll

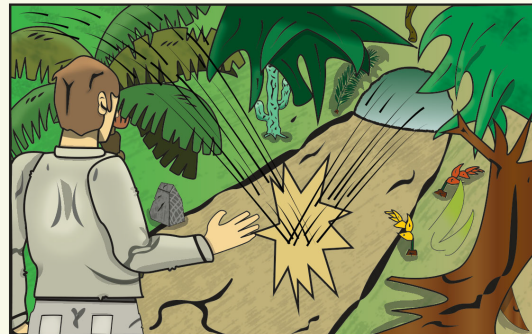

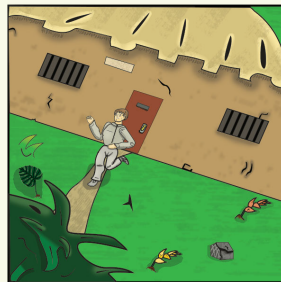

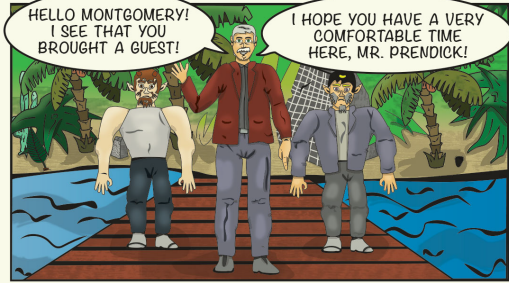

I DR. HENRY JEKYLL, OF CLEAR SOUND MIND CONFESS, THAT THE RECENT CAUSE OF MURDER AND CHAOS THAT HAS BEEN GOING AROUND IN LONDON IS THE CAUSED BY MR. HYDE.

MR. HYDE IS MY COUNTER PART TO OF MR. HYDE.

HERE THEN, AS I LAY DOWN THE PEN AND I PROCEEDED TO SEAL UP MY CONFESSION, I BEING THE LACK OF THAT ODDWAY IN HENRY JEKYLL TO AN END.

NOW I, MR. UTTERSON KNOW THAT MY DEAR FRIEND HENRY JEKYLL MADE A SERUM THAT CREATED PURE EVIL INSIDE A HUMAN!

IF I CANNOT SAVE MY FRIENDS LIFE, THEN I SHALL SAVE DR. JEKYLL HONOR BY REVELING MR. HYDE CRIMES!

The Island of Doctor Moreau

The class that I took in my Junior Year give me a list of books that we can turn into an 16 page adaptations comic. I went with The thriller novel author H.G. Wells adn the 1896 book "The island of Doctor Moreau." I read the book and my thoughts had superb feeling about humans try to be the creator and make what they are out the animals that roam the world.

ZBrush Tirra Hund Illustration

I attended a Zbrush class after trying once for a small amount of time in another class. It took a while to master it, but it is delightful due to how I can make figures of what I want like carving it out of clay and transfer it to Photoshop. I made a hound of flesh and minerals of the earth, Tirra Hund. I use the import ZBrush image with a few pictures in photoshop to give the character a suitable background.

Modern Fantasy Life Comic 3

This is another original piece of comic art that I made. The comic plot revolves around three characters having heartfelt, yet comical fun adventures of their lives. It's a bit of fantasy mixed with modern days ideas. The characters are Ray the half joyful supernatural, half human in the green jacket. Gem the witty, mature human female in the black leather jacket. And Zip the swamp supernatural who is off screen in this short comic. This is third page and it's sometimes short comics.
